

SPEAKER ISSUES BRIEF FOR WILSON

Calls Upon His Friends to Support the Ticket.

PAYS RESPECTS TO NEBRASKAN

Declares "Empty Words of Disappointed Demagogue Fall Meaningless to Ground." Underwood's Aim Was to Wipe Out Lines Between North and South.

[Special to The Times-Dispatch.] Washington, July 6.—Calling upon his friends throughout the country to support the Democratic ticket of Wilson and Marshall, and dubbing William J. Bryan, by inference, a "disappointed demagogue," Speaker Champ Clark tonight issued his brief for Wilson. His statement was as follows:

"It is my earnest wish that my friends in Missouri and elsewhere shall give their loyal and enthusiastic support to the Democratic ticket nominated at Baltimore. I have already pledged my personal support to Governor Wilson, for whom I believe we have fought so long, will result in the highest good to our country, and will own with success my own labors in behalf of the party."

"The party which under the leadership of Colonel Bryan, the party suffered a crushing defeat. My colleagues in the House of Representatives called me to the leadership of the broken and discouraged Democratic minority. They took upon themselves the review of harmony and the subordination of personal interests to party principles. With the illustrious Payne-Adair tariff bill enacted we overthrew Democracy and elected in 1911 a Democratic House of Representatives, the first national victory for the party in twenty years."

"In the Sixty-Second Congress my colleagues further honored me by election to the highest position in the gift of the party—the speakership of the House. I am proud of the record of that Congress, and of the part which I have been able to contribute to its work."

"I have written a brilliant and commendable confidence of all good citizens. It has reduced expenditures, curbed Republican extravagance, restored freedom of domestic employment, admitted Arizona and New Mexico, reduced the tariff downward, provided for the direct election of Senators, proposed an income tax, compelled the publication of campaign contributions before elections, unshackled labor, removed the cause of Federal employment, extended the principle of the eight-hour day and rebuked Russia in vindication of American citizenship."

"It is a glorious record of progressive achievements before which the record of any other Congress would be a feeble and meaningless thing. I call upon my friends everywhere to rally to Governor Wilson and ensure the success of this splendid program."

Underwood Has No Regrets. [Special to The Times-Dispatch.] Washington, July 6.—Asserting that Representative Underwood's greatest aim in his candidacy was to wipe out the lines between North and the South, and that he has no regrets for the election of the Baltimore convention, Senator Underwood tonight issued a lengthy statement explaining the House majority leader's attitude.

"Though his desire was to be nominated," the statement declared, "Mr. Underwood feels that under his leadership a great victory has been won. But his fondest hope, however, in event he could not win, was that his candidacy would forever eliminate from the hearts of all men whatever of sectional feeling there remained; that the South might be restored to its rightful place in the political councils of the nation."

"Mr. Underwood is entirely contented with the result, and will continue to devote his great abilities and qualities of leadership to the duties of the position he holds as leader of the majority in the House. His present position is a national affair, and he has no intention of leaving it. He is not under any obligation to the party, and he is not under any obligation to the people. He is only under an obligation to himself to remain in that position where he could render the greatest possible service to the Democratic party."

"He awaits orders, and will follow Governor Wilson into the thickest of the fight, and expects a sweeping victory in November."

A Japanese valet, who lived with him for two years got a judgment last March against him for \$33,952 and Catts has not paid it. In his answers to the questions which the examination lawyer put to him, he explained that there is a good reason why Miss Tennant has not moved into her new home. It is Miss Tennant who pays the bills at 431 Riverside Drive, where they live, and it was Miss Tennant who furnished the rooms. Catts explained that his business with the straight Plaster Lamp Company, at 125 West Forty-third Street, has brought him in about \$225 in the last three months. These things appear in his sworn testimony.

NO MYSTERY IN ABSENCE

Attorney for Missing Publisher Says He Is in Germany.

New York, July 6.—A report of the alleged mysterious disappearance of Frank McKimsey, publisher of Trust Company, a magazine, has been refuted by McKimsey to-day. The statement that McKimsey had left the city was known as an old lie. McKimsey, who is the publisher of the magazine, said that he had been paid money to vote for Lorimer.

The only reason White was now alive, the North Dakota Senator asserted, was because of the "patience and forbearance of the man he offended."

"This movement against Mr. Lorimer," declared McKimsey, "is dominated by public sentiment, and a trial based on the law and facts is impossible."

There could not be an unbiased verdict by the members of the Senate," he said. "Members of that body have already gone on record with votes to the effect that Lorimer had been elected through the use of 'corrupt methods and facts.'"

Chairman Dillingham, of the investigation committee, led off in the debate. He pointed out that a majority of the committee believed that the election of Lorimer was a case of corruption of any kind. He asserted that Lorimer had great popularity in Illinois, but that in his political career he had aroused animosities. The reasons, declared Dillingham, were given by Lorimer himself when speaking under the auspices of the inquiry. Lorimer's great activity in advocating the Lakes-to-the-Gulf waterway project was the main reason, he insisted, through which he obtained his "nonpartisan" strength. The movement, he said, was not political.

Senator Meyer, of Montana, made a vigorous argument favoring the expulsion. He declared that such action would be justified by the law and the facts.

"I say the Senate is sitting as a court in this case," said Senator Meyer. In attacking the plea of an adjudicated raised in defense of Lorimer, "Every citizen of the United States should command a new trial, except justices of the peace or police courts."

"Surely none in this chamber would place the Senate on a level with justices of the peace or police courts."

When a grand jury began investigation of the Lorimer case, Representative R. E. Wilson fled to Canada and registered under an assumed name. The wicked lie when no man parathet, but they flow much faster when some one is after them, especially in the case of a grand jury. The Stars and Stripes have been moved from the dais over the Illinois Capitol building and the red flag of an auctioneer substituted for it. The red flag should float there until the Senate is purged of the presence of Senator Lorimer.
